DELTA WELCOMES NEW STAFF MEMBERS

Endwell, NY - Delta Engineers, Architects, Land Surveyors, & Landscape Architects, DPC (Delta) is pleased to announce the addition of several new staff members:

Mr. Galen C. Richmond, RA is a Project Architect in the Architecture Group. He earned his Bachelor's in Architecture from Syracuse University and is also a proud graduate of Monroe Community College. Galen maintains certification as a NYS Code Enforcement Official and is a veteran of the Marine Corps. His project experience includes K-12 educational building projects, mixed-use facilities, among several others. His duties will include assisting the project manager in developing design parameters, scopes of services and estimates during the proposal stage, quality control of work products, preparation of technical specifications, processing shop drawings and attending meetings and presentations with the client.

Mr. Robert D. Johnson, RA joins Delta as a Project Architect in the Architecture Group. He brings over 45 years of experience in architectural design, project management, architectural representation and sustainability administration to the position and has a great deal of experience with Revit and BIM360. He is a registered architect with the New York State Education Department. His duties will include assisting the project manager in developing design parameters, scopes of services and estimates during the proposal stage, quality control of work products, preparation of technical specifications, processing shop drawings and attending meetings and presentations with the client.

Ms. Kara B. Ghezzi joins Delta as an Architectural Designer in the Architecture Group. After graduating from Cazenovia College in 2007, Ms. Ghezzi worked as an Architectural Illustrator creating exterior and interior renderings and as an Interior Designer working on commercial and higher education projects. At Delta, she will prepare or assist in the preparation of documents, details, or schedules, attend client meetings, work on field inspection teams, develop quantity take offs and construction cost estimates and participate in site visits, inspections, and documentation.

Mr. Frank A. Zmitrowitz is a Resident Engineer in the Delta Endwell Transportation Group. Frank brings 42 years of experience in construction management, working previously as a Field Superintendent and Civil Engineer. He also has experience surveying and working on environmental projects for clean water and wastewater. Frank provides construction management, inspection, and monitoring for Delta projects. His duties include supervising construction administration staff, completing daily contract diaries for the project, monitoring EEO/DBE/MWBE compliance, conducting and documenting periodic construction coordination meetings and assisting with completing all project close-out paperwork.

Ms. Morgan L. Zwierlein is an Assistant Engineer in the Delta Endwell Civil group. A recent graduate from Clarkson University, with a BS in Civil Engineering with a focus in Structural Engineering, Morgan's duties will include preparation, or assisting in the preparation of, engineering documents, details, schedules, or reports, attending client meetings and presentations, serving on field inspection teams, participating in site visits/inspections or documentation during construction and developing construction cost estimates.

Ms. Nicolette A. Provenzano is a Business Development Coordinator in the Delta Business Development Group. Nicolette received her bachelor's degree in Marketing and Minor in sales from the State University of New York College at Oswego. She has extensive background experience from previous marketing roles. Her duties will include assisting with proposal preparation, strategic planning, marketing campaigns, social media, website development, project photography, and will be attending events as a representative of Delta.

Ms. Karen J. Hart joins the Delta Corporate General Group as a Project Accountant. She graduated from the University of New York Polytechnic Institute in Utica with a bachelor's degree in accounting. She has worked for federal and state contractors providing support to project managers on various projects. At Delta, her responsibilities include processing billing, accounts payable, and accounts receivable transactions, reviewing subcontractor invoices for compliance with contracts, and providing support in state and federal audits.

About Delta Engineers, Architects, & Surveyors

Delta is an ISO 9001:2015 certified company founded in 1976 dedicated to providing innovative architectural and engineering planning and design solutions for facilities and infrastructure as well as environmental, survey and mapping, landscape architecture, and ecological services to public and private clients throughout the United States. Delta has offices in the Greater Binghamton, NY Region (Endwell, NY), the Syracuse, NY Region (Syracuse, NY and Vernon, NY), the Albany Capital Region (Schenectady, NY), and the National Capital Region (Chevy Chase, MD).
